

# Schnauzer Rescue Cincinnati

Issue 6 - June 2019

## A Lifetime of Service

It saddens us to announce the retirement of Patricia Miller.

Pat is the founder of [Schnauzer Rescue Cincinnati](#) which was started in November 2004 with her first foster Sarge. Due to Pat's hard work, dedication, and commitment, she retires with greater than 1,600 lives saved.

Pat will be greatly missed, but will remain involved as a board member with the rescue. Schnauzer Rescue Cincinnati has an active board and many members in place to see the rescue continues on per Pat's wishes.

Filling her shoes will be an almost impossible task.

On behalf of Schnauzer Rescue Cincinnati and the entire Schnauzer and Rescue community, I would like to wish her the best of luck.

Amy Figgins

Vice President

Newsletter Editors: Lexus and Moe (joined fur-ever home in 2017) with their favorite vet, Dr. Jo Goodman, Evendale Pet Hospital

Lexus and Moe are ready for summer flowers and blooming trees ... to mark.

## Foster Homes Needed

We are active in: OH, KY, IN, MI, and MO. We are always looking for volunteers & foster homes.

[Schnauzer Rescue Cincinnati](#) is an Ohio based 501c(3) non-profit organization group established in November 2004 by Pat Miller. We are dedicated to saving the lives of Miniature Schnauzers and Schnauzer mixes.

Please consider [submitting a request](#) to foster and join us.

Our mission statement is:

*No Schnauzer Left Behind*

## Doggie Did You Knows

Psychology professor William Chopik conducted a study around dogs' moods. He suspected a dog's mood, or personality, should not change that much. The study, published on [curiosity.com](http://curiosity.com), showed that a dog's personality does change with age and circumstance. "Extroverted people likely put their dogs in more social situations, which trains the dogs to be sociable; neurotic people probably take their dogs to fewer new places, which makes the rare foreign situation feel more dangerous. In other words, owners could be constantly shaping their dogs' personalities, even when they're not consciously 'training' them."

Dogs can take on human moods, and we all know they can start to look like us. So, it makes sense that their personalities could change when ours do or when circumstances prevail. We all have seen our dog's personality change with age, this study also shows how it can change situationally. Fearfulness was the only trait that didn't vary with dogs' age.

Ozzy & Odin are available for adoption (July 2019)

## Barkaritaville Prizes

At the 2018 Barkaritaville event, so many prizes were donated. One such prize was a tour of the Rheingist Brewery, won by the mother of two golden retrievers who visited the event. #alldogswelcome

The tour consisted of walking the downtown location, hearing history, and learning about the craft.

When is the next [Barkaritaville](#) event?

September 28th at 11am!

More details coming soon.

Now we can cheers to that!

## Did you know:

- The United States has the highest pet dog population in the world. Approx. 75.8 million.
- Dogs that have been spayed or neutered live longer than dogs who are intact.

## Pet Trends in 2019

We all love a nice vacation, just look at the travel industry's recent uptick, or the new way to plan using apps like Homeaway and Airbnb. Who would have thunk it... a trend we are now seeing is pet vacations. Introducing [Dog Vacay](#), an app that acts like an Airbnb for dogs, which connects you to a network of pet-sitters, dog-walkers, daycare, and more for any location you may be visiting. I don't know about your pets, but the schnauzers in my house have it pretty nice all year long!

If you are in need, its another pet-friendly app in partnership with Rover.com.
